## The Paramount Philosophy:

With a vision of being a global leader in the medical disposable industry, Paramount Surgimed believes in providing its customers a timely supply of quality products at a competitive price. The company came into existence in 1993 under the Grover Group of companies capitalizing on the rich and diverse experience of over 60 years. Now, the brand is symbolized with trust and quality in the medical industry. The company started with the manufacturing of Surgical Blades and is now a leading supplier of a huge range of disposable products.

Paramount exports to over 80 countries, has 40 distributors and 400 Dealers across India. Our State-of-the-Art production facility compares to any international standard and is accredited with ISO: 13485:2016, CE Mark and US FDA Device Listing.

## The Paramount Vision:

Paramount Surgimed and all its employees share the vision of their dynamic Managing Director, Mr. Shaily Grover to be a global leader in the Medical Industry. Mr. Grover has ensured that the Group's reputation amongst its associates is synonymous with top quality, updated technology, dedicated approach and customer friendliness.

# Universal Safety Scalpel

## Stainless Steel blade

### Features

- Safety Mode: When you retract back after fully extending the blade, it makes a click sound to denote it is in safety mode. Safety mode means that the scalpel is not fully extended. This feature avoids injuries when the blade is half way extended as it retracts back and does not pierce through. It has to be fully extended to use.
- Safety Lock: if you completely retract back it makes a loud click denoting it is in safety lock position. Safety lock position means that the blade cannot be reused once it is in lock position. This feature forces the doctor to dispose the product and minimizes the risk of transmissibility of blood-borne infectious agents.
- Compatible for a left handed as well as right handed surgeon.
- Safety feature in pre use and post use of product.
- One-handed activation allowing the clinician to focus on the surgical site.
- The retractable design protects the blade from exposure, minimizing the risk of accidental cuts.
- Universal size handle that fits all types of hand sizes, and ideal for kits, trays & packs.
- One handle size fits all blade sizes.

# Biopsy Punch

## Stainless Steel blade

### Description

Biopsy punch is a sharp rounded blade tip used to remove tissue to be tested during procedures. The instrument is sterile with a round plastic handle. The punch is available in a variety of tip sizes and is sold in both sterile single pack as well as in bulk quantities.

Finely ground seamless, stainless steel blade ensures safe, clean and easy sample extraction. The sleek ribbed handle clear view of the biopsy site, comfort and control.

Virgin grade ABS plastic provides strength and sturdiness.

## Stitch Cutters

### Stainless Steel & Carbon blades

#### Description

Stitch Cutter is used for general suture removal. Appearing similar to a scalpel, this instrument requires no handle and is a simple and convenient, way to remove basic sutures. The slightly curved, flat, bull nose tip slides under the suture and when rotated, gently removes the suture from the site. Long stitch cutter is made of stainless steel and short stitch cutter is made of carbon steel. The mini stainless steel stitch cutter can be used with handle No.3L, 7 & 9. Alternatively, it is also available on pre-mounted ABS disposable plastic handle.

#### Features

- Five Year Shelf Life – Sterile
- Each blade is protected by VCI paper in a peel-open foil sachet.
- Convenience of single-use disposables.
- Sizes clearly marked on each blade.
- Each box contains 100 pcs

# Disposable Dental Scalpel

## Stainless Steel

### Description

Dental disposable scalpels initially conceived for parodontology and Stomatology, because their form allows to do precise and fine Incision, even in hardly accessible areas.

These instruments have numerous applications in other disciplines like cardiology, plastic surgery, gynecology and neurology.

They can be presented in two ways: with a plastic molded handle, or separately, in order to be fixed on a special handle.

# Myringotomy Knife Blades

## Description

Myringotomy is a surgical procedure of the eardrum or tympanic membrane. The procedure is performed by making a small incision with a myringotomy knife through the layers of tympanic membrane

## Features:

- Optimised micrometre-accurate precision grinding
- Double edged allowing for cutting movements in both directions
- Ultra-sharp cutting edges of superb durability
- Consistently sharp, angled blade facilitates a clean cut
- Spear tip, Narrow shaft
- Lance tip, Downward cut, Narrow shaft

## Disposable OS Dilator/Locator

### Description

OS Dilators are cervical dilators useful for locating and dilating the external os, cervical canal and internal os of the uterus.

1. OS Dilators
2. Canal Dilators
3. Fundas Dilator

### Features:

- ABS Plastic
- Disposable
- Sterile
- Latex-Free

## Endocervical Curette

### Description

Endocervical Curette is an instrument that has a spoon shaped tip used for cell collection from the mucous membrane of the endocervical canal.

### Features:

- ABS Plastic
- Disposable
- Sterile
- Latex-Free

# Disposable Adult Diapers

## For Urinary Incontinence Management

### Features:

- Dry-Fast Core, Super absorbent.
- Moisture repellent.
- Security barriers.
- Waist Elastication and curved leg elastic.
- Superfit Band Wetness Indicator.
- Three absorbency levels and three sizes.
- Compact and convenient packaging.
- Also available in options of double cotton core & ADL.

### Benefits:

- Faster absorption, drier surface.
- Better containment of faces.
- Reduces urine leakage.
- Improves comfort.
- Comfortable fit.
- Easier to fix and adjust tapes.
- A Guide for carers.
- Meets individual requirements with cost effective care.
- Easy to handle less storage space required.

## Under Pads

### Drip Free / AroKleen

#### Description

- **Anti-Leakage Design:**  
The product has extra width and length designed for better absorption.
- **Dry And Comfortable:**  
It has large absorbing padding using the reticular embossed design to introduce the water diversion towards every side keep the surface comfortable.
- **Skin Friendly:**  
Using the super-nonwoven as the top layer, it feels comfortable and prevents skin rashes.
- **International Quality:**  
Strict controls of product material and production assuring safety and health.

#### Details:

Product Name:	Under Pad
Size of Poly Bag (cm.):	29 x 20 x 10
Unit/Box:	10
Export carton:	12 Bags x 10 Units
Export Carton size:	41 x 31 x 59
Per 20 feet container:	350 Cartons

### PupPee –Pet Training Pads

#### 4 LAYERED LEAK PROOF TECHNOLOGY!

#### The Advantages of Using PupPee Pads

Our pads provide worry-free training for your puppy & peace of mind for you. They also can be used as an alternative to outdoor "relief" for your adult dog.

- Locks in wetness with quilted top layer
- Ensures maximum absorption power with 2 moisture-locking layers
- Protects floor & carpets with leak-proof backing
- Provides easy training with built-in attractant
- Protect your floors
- Easy cleanup & disposal
- Quilted for extra absorbency
- Less accidents means less disciplining
- Dog attractant reinforces training
- Durable, tear resistant

**EC Certificate Full Quality Assurance System**

Certificate No. 11353-2017-CE-IND-NA-PS Project No. PJCZ-21393-2019-PRC-ND Valid Until 18 February 2020

This is to certify that the quality system of **Paramount Surgimed Ltd.**, H.O.: 1, L.S.C., Okhla Industrial Area, Phase – II, New Delhi – 110 020, India.

For design, production and final product inspection/testing of **Surgical Disposable Medical Devices**

Has been assessed with respect to: **The conformity assessment procedure described in Article 11.3.a and Annex II excluding section 4 (Module H2) of Council Directive 93/42/EEC on Medical Devices, as amended**

and found to comply.

Further details of the product(s) and conditions for certification are given overleaf.

Place and Date: **Havik, 18 October 2017**

For: **DNV GL NEMKO PRESAFE AS**

Alessandra Rinna
